

From Expert Knowledge to Operational Intelligence

Structuring consulting expertise into reusable intelligence

Paolo Pileggi

May 2026

Your firm generates expertise. **Make it reusable.**

The Value Navigator helps consulting firms structure and connect expertise across projects, teams, and client engagements.

Connected

Expertise across Teams

Reusable

Implementation Knowledge

Faster

Onboarding and Delivery

Structuring expert knowledge into operational intelligence.

The **Value Navigator** helps consulting firms capture, structure, and connect operational expertise into a shared navigable intelligence environment.

Expertise Sources

Methodologies, delivery experience,
implementation insight

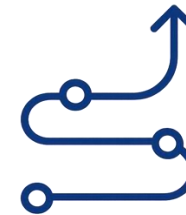

Structured Intelligence

Connected operational knowledge
across teams and projects

Organisational Value

Reusable expertise, faster delivery,
onboarding continuity

Practical operational layer across consulting activities.

Align expertise, delivery approaches, and operational understanding across teams and assignments.

Start with a **lightweight exploratory pilot.**

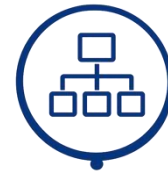

Explore how expert knowledge can become reusable operational intelligence.

What we do together

- Workshop or structured knowledge capture
- Structure expertise and implementation pathways
- Build an initial pilot navigator

What you receive

- Pilot operational intelligence environment
- Faster access to internal expertise
- Reusable implementation insight
- Foundation for future scaling

Possible next steps.

Facilitated

workshops and onboarding

Reusable

implementation canvases

Advanced

navigators and scaling

Long-term

Operational Intelligence Development

Thank you.

Helping organisations structure expertise into reusable operational intelligence.
