

From Project Knowledge to Strategic Value

Turning project knowledge into consortium intelligence

May 2026

Your project generates knowledge. **Make it usable.**

The **Value Navigator** helps projects use knowledge more strategically across the consortium and beyond.

**Connected knowledge
across the consortium**

**Earlier and clearer
strategic direction**

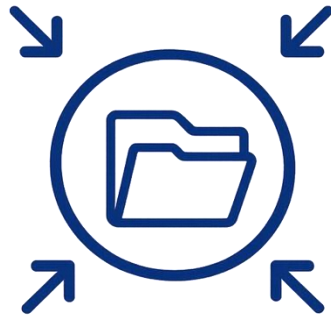

**Structured exploitation and
implementation pathways**

Where knowledge already exists, **structure it.**

The **Value Navigator** helps turn evolving project knowledge into reusable strategic and implementation value.

Knowledge Sources

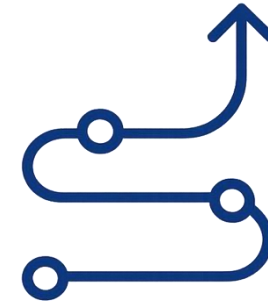

Consolidate existing, emerging, and distributed knowledge into a shared strategic foundation.

Strategic Value Framing

Structure knowledge around stakeholders, initiatives, capabilities, solutions, and implementation pathways.

Reusable Value Pathways

Support exploitation planning, stakeholder engagement, implementation pathways, and reusable strategic insight beyond the project.

Practical strategic layer across the project lifecycle.

Supports strategic coordination, exploitation, implementation planning, and knowledge continuity.

Preserve project knowledge beyond meetings, work packages, and partner turnover.

Start with a **lightweight pilot.**

Explore how **The Value Navigator** could support your project.

Particularly useful for projects developing **exploitation, stakeholder engagement, sustainability, or implementation** strategies.
